

Help set the direction of technical assistance for our region's schools

Northwest Regional Labs is asking for feedback on the most pressing educational issues and how the Department of Education's Comprehensive Centers can provide assistance to address those issues.

Provide your input in a short 5-question online survey at:

<https://www.surveymonkey.com/r/PML2GPN>.

The Comprehensive Centers program is authorized and funded to provide technical assistance to state education agencies to support local educational agencies and schools, especially low-performing districts and schools; improve educational outcomes for all students; close achievement gaps; and improve the quality of instruction.

The department will use the information submitted by regional advisory committees to help set priorities for the next cohort of centers.
