Introduction

The Washington School Board Standards are intended for use by local school boards and individual directors as a common framework for school board governance. Two sets of standards were developed to encourage school boards and individual school directors to subscribe to the highest levels of professional and personal conduct and performance.

The standards identify the elements of good governance and effective board leadership as drawn from best practices and current research. They provide shared understanding of what constitutes good governance. They also validate and affirm the importance of the school board's role in ensuring student success.

School Board Standards

The standards encourage boards to focus on student achievement as their primary responsibility. For many school boards and individual directors, these standards will reinforce current practices. For others, they will provide a challenge and goals to be achieved. While use of the standards is voluntary, it is the hope that every school board will use them as a target for high performance.

The public also has an interest in the governance of its local schools, and the standards provide an opportunity for clarity of board roles and responsibilities and of the expected skills, knowledge and behaviors of school directors. These standards should serve to increase the public's confidence in local school boards.

Five core principles

The School Board Standards comprise five core principles:

1. Responsible school district governance
2. Communication of and commitment to high expectations for student learning
3. Creating conditions district-wide for student and staff success
4. Holding the district accountable for student learning
5. Engagement of the community in education

Benchmarks, indicators and references

Each standard has a set of benchmarks and key indicators to further define and help translate the standard into practice. The benchmarks identify the knowledge and skills that high performing boards demonstrate in meeting

"We intend the Washington School Board Standards to serve as a guide to help boards understand and apply common principles of good governance and to assess the strengths and weaknesses of their own board governance to continuously improve their performance."

each standard. The indicators outline questions about what each standard looks like when applied at the local board level. A review of the professional literature provided references, which are identified for each of the standards and related benchmarks, and are included in a complete version of the standards, which can be found at wssda.org under "Popular Links."

Individual School Director Standards

The second set of standards, for individual school directors, describes healthy conduct of directors relevant to their relationships with one another, the community, staff, and students. These standards address professional behaviors needed to fulfill the obligations of being effective and responsible school directors.

Development of standards

The Washington School Board Standards were developed by the WSSDA Board Standards Task Force, which was established by the WSSDA Board of Directors in August 2008. The project began with face-to-face discussions among Task Force members and with internal and external stakeholders. The Task Force then drafted the standards over a period of nine months, soliciting input from all school directors, superintendents, WSSDA training consultants, and other education groups and revising them to incorporate input. The final Washington School Board Standards were adopted by the WSSDA Board of Directors on June 27, 2009.

Putting the standards into practice

Although school boards have adopted varying governance structures and each district and community is unique, WSSDA encourages all school boards to put the standards into practice in a way that is appropriate for their district. Not every benchmark and indicator under each standard will be directly applicable to all districts. Boards are encouraged to review and discuss the standards, and consider passing a resolution to adopt them in a format that is useful. Once adopted, the standards can be shared with staff and community to bring additional clarity of board roles and responsibilities.

The Individual School Director Standards can be used as a foundation for board protocols to which all board members agree, as a method of commitment by each school director, or as a self-directed learning plan.

Additionally, the Washington School Board Standards form the basis for the Boards of Distinction program, which replaces the WSSDA Boards of the Year and Diversity Awards. Other uses will include a board self-assessment instrument based on the standards, board workshops and training, and incorporation into curriculum.

School Board Standards

Standard 1

Provide responsible school district governance by:

- a. Conducting board and district business in a fair, respectful and responsible manner.
- b. Ensuring the board is accountable and open to the public including seeking divergent perspectives in its decision making process.
- c. Respecting and advocating mutual understanding of the roles and responsibilities of board members and the superintendent.
- d. Adopting policies based on well-researched practices that emphasize a belief that all students can achieve at high levels and that support continuous improvement of student achievement.
- e. Promoting healthy relationships by communicating supportively, inspiring, motivating and empowering others, and exercising influence in a positive manner.
- f. Working as an effective and collaborative team.

Standard 2

Set and communicate high expectations for student learning with clear goals and plans for meeting those expectations by:

- a. Articulating the conviction that all students can learn and the belief that student learning can improve regardless of existing circumstances or resources.
- b. Leading the development, articulation and stewardship of a vision of learning that is shared and supported by schools and community.
- c. Adopting a collaboratively developed district plan focused on learning and achievement outcomes for all students.
- d. Ensuring non-negotiable goals for student achievement are established and aligned to the district's plan.

Standard 3

Create conditions district-wide for student and staff success by:

- a. Providing for the safety and security of all students and staff.
- b. Employing and supporting quality teachers, administrators and other staff and providing for their professional development.
- c. Providing for learning essentials, including rigorous curriculum, technology and high quality facilities.
- d. Ensuring management of the organization, operations, and resources for an efficient and effective learning environment.
- e. Adopting and monitoring an annual budget that allocates resources based on the district's vision, goals and priorities for student learning.

We, as independently elected officials, recognize and accept the responsibility of our role and our personal authority to act only within the structure of a school district's board of directors. We commit to taking the time necessary to understand the beliefs, acquire the knowledge and develop the skills necessary to be effective school directors.

Standard 4

Hold school district accountable for meeting student learning expectations by:

- a. Committing to continuous improvement in student achievement at each school and throughout the district.
- b. Evaluating the superintendent on clear and focused expectations.
- c. Measuring student academic progress and needs based on valid and reliable assessments.

Standard 5

Engage local community and represent the values and expectations they hold for their schools by:

- a. Collaborating with families and community members, responding to diverse interests and needs, and mobilizing community resources.
- b. Ensuring school board and district transparency through a process that is open and accountable.
- c. Ensuring district information and decisions are communicated community-wide.
- d. Soliciting input from staff and a wide spectrum of the community so that a diverse range of interests and perspectives on issues is considered.

"The Standards provide a foundation for the critical discussions and ensuing decisions that must be made to ensure student success."
